

ERC MDO [ONERA-SUPAERO] SEMINAR

- Ankit Chiplunkar: Distributed Gaussian Process for Flight Test Identification 20'
- Elisa Bosco: Nonlinear transient Fluid/Structure Interaction approach using surrogate models: A validation procedure through wind tunnel testing 20'
- Claudia Bruni: *Open Framework for sizing BWB and aeroelastic perspectives* 20'
- Pierre-Jean Barjhoux : *Hybrid optimization for multimaterial structures* 5'
- Joan Mas Colomer: Wing Optimization for Aeroelastic Similarity 20'
- Simone Coniglio: TSFC driven engine mounts structural and topology optimization 5'
- Sylvain Dubreuil: MDO formulation by surrogate modeling 20'
- Alessandro Sgueglia: *Exploration of design of a BWB with Distributed Electric Propulsion* 5'

- Open Discussions

Vendredi 3 mars 9h-14h
Salle Cazalbou BAT38
